Progress Reports

Progress Reports have started to be prepared by our teachers. These reports will give you a good indication of your child's progress so far this year. The Learning Skills are by far the most important indicator of your child doing their best. As a school board, Self-Regulation is an area of focus. We want students listening to feedback and setting goals for improvement. You can help by discussing the small steps needed to achieve a goal, and support at home.
We are adding a grade 8 award for Learning Skills this year (given at graduation). Students who meet the criteria will receive this important award.
